The transceiver of claim 20-- .

The Interview summary is enclosed.

Double Patenting

Double Patenting

4. As the Terminal Disclaimer filed by the applicant is approved, the double patenting rejection is withdrawn.

REASONS FOR ALLOWANCE

5. The following is an examiner's statement of reasons for allowance:

This invention relates to an echo cancellation device for use in a full duplex communication system, wherein the full duplex communication system comprises an echo canceller. Claim 1 identifies the uniquely distinct feature of the echo canceller comprises: wherein the echo canceller further comprises a pull-up current source for increasing a DC level of the echo canceller. The examiner interprets this pull-up current source as current I_a , as shown in Figs. 5, 6 and 8. The specification (see Para: 32 through 34, Pages 8-9) supports this limitation. Fig. 7 illustrates the practical application of the pull-up current source to cancel echoes. The prior art of record does not teach this limitation. Therefore, claim 1 is indicated allowable. Claims 14 and 20 contain a similar limitation, and hence are indicated allowable. Claims 2-13 being dependent from claim 1, claims 15-19 being dependent

from claim 14, and claim 21-22 being dependent from claim 20 are also indicated allowable.

6. The claims have been re-numbered as follows:

CLAIMS NUMBER (ORIGINAL)	CLAIMS NUMBER (FINAL)
1-22	1-22

Claim no. 14 along with figure number 7 will be published in the Official Gazette.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
